About This Content

The Music of the World collection contains 21 tracks with over an hour of music. With music inspired from all parts of the world, there are songs for war, peace, trade, the plague and more. Enhance your game with a range of emotional songs inspired by locations all over the globe.

Tracks

- A City
- Africa
- Debt
- Decisions
- English
- Europe
- Himalaya
- Holy

-
- Impressive
 - Labour
 - Morning
 - New Times
 - Story of a Nation
 - The Fields
 - The Market
 - The Minich
 - The Plague
 - The Royal Court
 - Wait
 - War
 - Wealth

Title: Europa Universalis III Music of the World

Genre: Strategy

Developer:

Paradox Development Studio

Publisher:

Paradox Interactive

Release Date: 10 Dec, 2012

a09c17d780

Minimum:

OS:Windows XP/Vista/7.0

Processor:Intel® Pentium® IV 2.4 GHz or AMD 3500+

Memory:2 GB RAM

Graphics:NVIDIA® GeForce 8800 or ATI Radeon® X1900 video card

DirectX®:9.0

Hard Drive:2 GB HD space

Sound:Direct X-compatible sound card

Other Requirements:Broadband Internet connection

Additional:3-button mouse, keyboard, speakers, Internet connection for multiplayer

English,German

A

Honest response.

B

Say you have none.

C

Say you like to inflict pain on people.

Great game!. League is better.. Although rather buggy at the time of writing this, when you can actually get a game going, this is a whole load of fun. I'm not a big card game buff but I thoroughly enjoyed this and had many laughs with my friends playing it, I can see it being another big card game franchise if the underlying bugs are fixed.. every girl is best girl.

Change my mind.. kept crashing no idea why i have a beafy pc 1050ti and a i5 and i can handle the game but why so much crashing it must be poorly optimised i couldnt get 10 minutes of gaming got my money back tho!!. Nearly as fun as Magical Mystery Tour. Nearly. Plus: building your collectibles. Minus: now it is too easy. No real challenge. 7/10. Freezes randomly during a mission so I need to restart it again and again. So I really cant say whether the game is good or not). A Disney movie for big boys and girls.

Fantastic story, great characters, typical Telltale [rip] goodness.

8V10 for sure. There are lots of great parts about this game. The graphics are entrancing and look great, and there are a heck of a lot of gamemodes.

However, I still can't like this game. Some of the notes are placed so they're seemingly impossible to get (or at least ridiculously hard) in a couple of the early levels. In addition, a lot of the levels have irritating or boring gameplay, notably Sound Ward, where there are a couple segments which are the same thing for a really long time. I stopped at Milky Ways; the gameplay mode introduced there is really irritating: you often die before you actually touch the walls.

Additionally, there aren't ANY customization features AT ALL. No level editor, no changing the player or whatever you want to call it, no nothing. It's just the nine levels that are currently in the game, and nothing more.

I bought this for half price in the summer sale and it wasn't even worth that.

I'm not going to recommend this unless Incodra fixes the problems with it and adds a lot more interest.. This game is a little more expensive than previous escape room VR games, but I think it makes up for the price with its quality. It's longer than any other escape game I've played here (it's actually 3 interconnected rooms), and the general visual quality is a pretty nice change from previous escape games; it's the first VR escape game I've played that felt like a finished product, and not a hobby project made by one guy. The title seems to imply that it's the first entry in a potential series, so hopefully they keep going with it.

Really nice, interesting, and VR controls are spot on!. This game is, as of this review, early access, and that carries with it a (valid) implication of a lack of polish. That said, this game is perfect for people who want to participate in the Battle Arena craze but want to practice without committing others to have to put up with their newbie shenanigans. Practice your tactics, reloading on the fly, sniping without being a target yourself... No one knows how to do this right out of the gate, your favorite streamers have been doing this for YEARS. Granted, no AI will be as unpredictable as real humans, but this will give you a chance to rehearse and learn the habits to get you started.. Never been so disinterested in a Choice of game. Every character has the same voice, everyone vomits exposition at the drop of a hat, and the pacing of the game is spotty. I didn't care about any of the characters, or about the backstory. The frequent flashbacks were annoying as hell. The fight and assassination scenes were good, but that's about it. Overall, the writing on this game was seriously weak.. Beautiful game! So cute, whimsical, and captivating. I want to live in Brother Rabbit's world! Keeps you thinking, but not to the point of frustration (i.e. you don't come back angry three days later trying to solve the same puzzle). I want more!. This is a military focused turned based strategy game. It's overall a very good game but there are a few bugs (2015-12-5). This was made a long time ago so some of the stuff you're used to in normal strategy games these days didn't exist back then (right click to move, telling soldiers where to move over the next few turns...). Mostly this game is great if you played it as a kid, otherwise you should look elsewhere.
